

INDEX of files concerning the Parish Survey 2016 and the Recreation Area Survey 2016

These files belong to two separate surveys. Files 01 to 05 pertain to the Parish Survey, and files 06 and 07 are from the Recreation Area Survey.

They comprise the following:

Parish Survey

- 01 The summary of, and introduction to, the whole project
- 02 The interpretation of the results by the Parish Plan Residents' Group
- 03 Graphical results of the numerical data from the Survey
- 04 The text, as written by residents in their questionnaire document
- 05 The numerical analysis of the Survey data

- 01 to 04 are PDF files, which can be opened with, for example, Adobe Reader, available on most computers
- 05 is an XLS document which will open in most Microsoft Office packages from the past several years

Recreation Area Survey

- 06 The title page and introduction, plus the graphical and textual data from the questionnaires, all in one file
- 07 The numerical analysis from the questionnaires

Five of the above documents have been presented to Selling Parish Council and the Residents of Selling, in paper form. However, 05 and 07, quite large spreadsheets of figures, would be unwieldy on paper, and are presented here, therefore, in electronic form.
